

Race - Chapter 13

1. What social scientist took the concept of “survival of the fittest” and applied it to society as whole? Hint: This guy’s work was later termed “Social Darwinism.” (p. 177)
2. According to the social scientist of question #1, the rich should not help the poor. What was his reasoning behind this statement? (p. 177)
3. What “Renaissance Man” was excluded from Galton’s study on excellence? (This would be evidence of the unreliable, subjective nature to his research.) p. 179
4. What is the difference between positive eugenics and negative eugenics?
5. What is an anti-Semite? (p. 182)
6. What is the “giant green lady” referenced at the end of the chapter? (p. 185)
