

*Race* - Ch. 9 - "Viva la Liberta"

1. In the introduction to chapter nine, a teacher splits her class into two groups depending upon eye color. What was the name of this teacher and what was her purpose in this activity?
2. List and describe the accomplishments of three scientists who contributed to the Enlightenment movement identified on p. 120 of the text.
3. David Hume, like many Enlightenment thinkers, came to what conclusion concerning differing racial groups? (p. 122)
4. Describe Blumenbach's theory on human diversity (p. 123-124)
5. According to Blumenbach, what was the oldest and "most beautiful" race? (p. 125)
6. What makes the "scientific" explanation (utilized in the 18th century) so dangerous?
